Livestock Forage Disaster Program

The 2014 Farm Bill makes the Livestock Forage Disaster Program (LFP) a permanent program and provides retroactive authority to cover eligible losses back to Oct. 1, 2011. LFP provides compensation to eligible livestock producers who have suffered grazing losses due to drought or fire. LFP payments for drought are equal to 60 percent of the monthly feed cost for up to five months. LFP payments for fire on federally managed rangeland are equal to 50 percent of the monthly feed cost for the number of days the producer is prohibited from grazing the managed rangeland, not to exceed 180 calendar days. The grazing losses must have occurred on or after Oct. 1, 2011.

Sign-up is ongoing. Additional details on the types of information required for an application will be provided as part of the sign-up announcement. Some eligibility restrictions may apply. Please consult this office for details and to set up an appointment.

Eligible livestock producers in Fremont County will be eligible for:

- 4 monthly payments for 2012
- 4 monthly payments for 2013

Livestock Indemnity Payments

The 2014 Farm Bill makes the Livestock Indemnity Payments (LIP) a permanent program and provides retroactive authority to cover eligible livestock losses back to Oct. 1, 2011. LIP provides compensation to eligible livestock producers who have suffered livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law, including wolves and avian predators. LIP payments are equal to 75 percent of the market value of the applicable livestock on the day before the date of death of the livestock as determined by the Secretary.

Sign-up is ongoing. Additional details on the types of information required for an application will be provided as part of the sign-up process. Some eligibility restrictions may apply. Please consult this office for details and to set up an appointment

Livestock owners should record all pertinent information of livestock death losses due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law.

Documentation of the number and kind of livestock that have died, supplemented if possible by such items as:

- Photographs or video records to document the loss, dated if possible
- Purchase records, veterinarian records, production records, bank or other loan documents
- Written contracts, records assembled for tax purposes, private insurance documents, and other similar reliable documents.

Additional information regarding LIP or other FSA programs can be found by visiting a nearby FSA Service Center or online at fsa.usda.gov.

Please note that the Fremont County FSA fax number has changed to: 855-415-3439

Farm Loan Program Information

Farm Service Agency (FSA) has loan programs that could help farmers and ranchers experiencing financial problems in today's economy of tight profit margins. Several types of loan programs are offered through FSA.

Under the Guaranteed Loan program, FSA guarantees farm ownership, term operating loans, and lines of credit used for annual operating through conventional agricultural lenders for guarantees up to 95%. The guarantee generally allows the conventional lender to provide the applicant with longer terms and lower rates of interest. All applicants must meet certain qualifying criteria to be eligible for guarantees. Farmers and ranchers interested in Guaranteed Loans should apply directly with a conventional lender, who arranges for the guarantee.

For those unable to qualify for a Guaranteed Loan, FSA offers Direct Loans, which are made and serviced by FSA officials. Funding is limited for Direct Loans, and applicants must sometimes wait until funds are available. To qualify for a Direct Farm Ownership or Operating Loan, the applicant must meet eligibility criteria and have sufficient repayment ability and loan collateral. FSA will work with you to analyze your situation, provide technical assistance, and tailor loans to meet your needs.

Youth between the ages of 10 and 21 may also apply for a direct loan up to \$5,000 associated with their 4-H, FFA, or other youth organization activities.

Farm Service Agency is an Equal Credit Opportunity Lender. Beginning farmers and members of traditionally underserved gender and ethnic groups are encouraged to apply for guaranteed and/or direct loan assistance from FSA. Each year, farm ownership and operating loan funds are temporarily set-aside to meet the needs of beginning farmers and traditionally underserved groups.

Anyone having questions, please call your local Farm Service Agency in Wheatland WY at 307-322-4050.

2014 County Committee Election

This year's election in Fremont County covers LAA 2, Lysite through Riverton Midvale Irrigation District.

Ballots will be mailed to eligible voters around November 3. Instructions for voting will be included. December 1 is the last day to return voted ballots to the county office, or postmarked. Please take some time to vote and select your representative on the County Committee.

Crop Reporting

The annual, timely and accurate reporting of acres for all crops and land uses, including failed acreage, can prevent loss of benefits for

a variety of Farm Service Agency programs.

Conservation Reserve Program acreage must be reported to receive annual rental payments. Crop acreage for Non-insured Crop Disaster Assistance Program (NAP) must also be reported.

Crop reports, form FSA-578, Report of Acreage, must account for all cropland on a farm, whether idle or planted. In Wyoming, the deadline to timely file 2014 acreage reports for spring seeded crops and CRP was July 15, 2014; however, we can still take late-filed reports, so don't hesitate to come in and file your report.

Prevented Planting: Prevented planting needs be reported no later than 15 calendar days after the final planting date.

Failed Acreage: Reports of failed acreage must be filed before disposition of the crop, and producers must be able to establish to the satisfaction of the county committee that the crop failed and was prevented from being replanted through the normal planting period because of natural disaster conditions.

2014 and subsequent years' acreage reporting deadlines:

- **Spring seeded crops and CRP-July 15**
- **Perennial Forage, PRF, Fall Wheat, and all other Fall-Seeded Small Grains-November 15**

This means your 2015 perennial hay/forage crops and winter wheat reporting deadline will be November 15, 2014.
